Trade Credit Insurance

For the Northern Ireland
Manufacturing Sector

Grow Your Business Safely Despite Brexit Uncertainty

Manage commercial and contractual risks and maximise potential growth opportunities

Trade Credit Insurance, or simply credit insurance, provides vital protection to businesses against the impact of bad debt, caused by the failure of their customer to pay for goods or services sold on credit. Domestic and Export sales can both be covered and, where necessary, Political Risk cover can also be included.

As well as vital protection against the potentially catastrophic effects of bad debt, credit insurance also provides many other benefits:

- Increased market intelligence on your customers
- Supports positive business growth
- Ability to target new quality customers
- Greatly reduces bad debt reserve requirement
- Greater access to finance facilities
- Fast replacement of working capital
- Enhances credit management procedures
